

WEEKLY EDITION. Topeka State Journal.

TOPEKA, KANSAS, THURSDAY EVENING, MARCH 22, 1894.

TWENTY-SECOND YEAR.

KYLE ENDORSES IT.

The South Dakota Senator and
Coxey's Army.

He Says It is a Lawful
Protest

AGAINST MORE BONDS.

Expects to See 50,000 Men in
Washington.

The Los Angeles Brigade Reaches
Tucson, Arizona.

INCREASED GOLD OUTPUT.

Estimates Point to Production of \$150,
000,000 for 1893.

WASHINGTON, March 22.—"I can hardly say," said Senator Kyle chairman of the
Senate committee on education and labor,
"why Senator Peffer should have Gen.
Coxey's bill referred to my committee,
but I shall examine them and see what
can be done about them."

"Do I think the army will come to
Washington?" he continued. "Most
assuredly I do, and I expect
to look out of my committee
room some day in May and see the assembled
multitude there in large numbers
according to the announced programme."
Would not wonder if there
would be 50,000 of them instead of 5,000,
and I for one believe that if tramps and vagabonds
can be kept out of the provision and a respectable lot of men
gathered together as I think will be the
case, the demonstration will have a
wholesome effect."

"It is intended to be a protest against
the issuance of bonds, and whatever
Wall street may think on the subject, I
tell you the country is almost solid in this
sentiment against bonds. What impression
the demonstration will make on Congress I
cannot say, but it is properly conducted it cannot fail to impress
the country at large and have a future if
not an immediate effect."

The senator expressed the opinion that
the governor of Pennsylvania could not
legally take any steps to prevent the
army passing through the state.

THE LOS ANGELES CONTINGENT.

It Reaches Tucson, Arizona, Too Strong
And Is Fed There.

A TARIFF COMMISSION.

Senator Morgan Thinks His Bill Will
Find Many Supporters.

WASHINGTON, D. C., March 22.—Senator
Morgan today expressed an intention
to press at the proper time his proposed
amendment to the tariff bill providing
for the appointment of a tariff commission.
He said: "The purpose of the
amendment is to provide for changes in
the tariff upon an equitable basis, without
disturbance in business which is
always the result of an effort to
make complete revision. If the matter
should be pressed by the hands of a committee,
such changes could be made to suit the condition
of the Treasury or of any specified
industry, and the result would be gradual.
If no agreement can be reached with the provisions
of the amendment as to not to create the
least disturbance."

The Senate voted to show that the amendment
would be constitutional and insisted the fact that
Senator Morgan also presented a proposal
similar purpose.

TRADE AND INDUSTRY.—A bill
providing for the appointment of a
tariff commission was introduced in the
Senate yesterday.

Mr. Morgan said a reporter that his
trip was partly one of pleasure and partly
one of business. "I am," he said, "you
know, interested in the milling business.
Up in Northern country—Minnesota and
the Dakotas—we grow the best wheat
in the world, but Kansas is a good second,
and what little wheat is grown in Missouri
is of the very first quality."

Mr. Pillsbury told a reporter that his
avowed intention being to inspect and
perhaps buy some elevators in Kansas.
He says that he regards Kansas as one of
the great states of the future and that he
is unwilling to miss whatever opportunity
may be offered there in a business
way.

HONORING KOSSUTH.

Expenses of His Funeral Paid by Buda
Pesth.

BUDA PESTH, March 22.—The city of
Buda Pesth will defray all the cost of the
removal and interment of the Hungarian
patriot to his city, and in addition the
city will meet all the expenses for the
funeral, and will provide the money necessary
for the erection of a tomb and mausoleum in honor of General Ros-
si.

The committee having charge of the
final arrangements is composed of citizens of Buda Pesth, irrespective of party
and politics, and it has been decided to invite subscriptions throughout Hungary
for the erection of the proposed
Hungarian memorial.

The remains of Kossuth will leave
Turin for Buda Pesth on Tuesday next.

SHALL CONGRESS ACT?

The Irrigation Contention Differ on
This Important Point.

OMAHA, Neb., March 22.—Nearly all
the entire morning meeting of the Interstate
Irrigation convention was spent in
executive session, debating the series of
resolutions prepared by the executive
committee. The principal fight was
made over the clause demanding that
congress make an appropriation to test
the practicability of irrigation by means
of artesian wells.

No conclusion was reached and the
debate will be continued this afternoon.

Gov. Crooks of Nebraska made a brief
address of welcome.

Charles A. Gregory of New York and
Chicago talked Irrigation and Continental
Development, and Ira C. Hubbard of
Kansas City read a paper on "Pumping
Machinery for Irrigation."

The convention took a recess for the
purpose of visiting the South Omaha
stock yards.

GONE TO JOIN MCKANE.

Gravesend Election Shows Being Con-
ducted With Regularity.

NEW YORK, March 22.—Constantine
Jamison of Gravesend, was found guilty
in Brooklyn of perjury, committed
in carrying out the programme of John
Y. McKane at the election last November.
The verdict was accompanied by a recommendation to mercy on account of
Jamison's ignorance.

The indications are that some of the
Kansans will oppose the bill because
certain of the sub-alliances have
adopted resolutions denouncing it. These
penny wise and pound foolish people do
not know that it costs the government
more to have special judges sit than it
would to retire Judge Foster, and that in
addition, the cost to litigants through
delay is tenfold the amount required.

OF INTEREST TO MASONS.

Meeting of the State Council of Adminis-
tration Tomorrow.

The Masonic state council of adminis-
tration will hold a meeting in Topeka to-
morrow. The members of this council are
Geo. W. Clark of Topeka, J. H. Mc-
Call of Wichita, U. G. Coleman of Clay
Center, and W. M. Shaver of Wichita.

The records of the Masonic grand
lodge, which were recently moved here
from Clay Center, are being classified
and systematically arranged for the benefit
of Masons visiting Topeka.

Justice Newton, mother of the Grav-
enders, pleaded guilty to the charge
against him, complicity in election and
was sentenced to ten months imprisonment
and to pay a fine of \$700, and started for Sing Sing immediately.

Banker Page Indicted For Murder.

FORT WORTH, Texas, March 22.—The
Tarrant county grand jury returned an
indictment against R. M. Page the
millionaire banker for the murder of Albert
McGinnis, on March 13. Page is still in
jail. His attorneys will seek his release
on bail by habeas corpus proceedings as
soon as Senator Page, defendant's
brother, who is in Crockett, Tex., can
reach home and consult with the defendant
and his attorney.

QUEEN LIL COMING.

With Lecture in the United States With
a Crown Upon Her Forehead.

INDIANAPOLIS, Ind., March 22.—Dr. J.
Hooser, of this city, announces he is
about to close negotiations with ex-
Queen Idiokokan for a lecture tour of
the United States. Mr. Hooser wrote to
the ex-queen six weeks ago offering to
make a tour for her and he says the
reply indicates that she will accept the
proposal made.

"We shall begin the tour in San Fran-
cisco," said he, "as soon as the queen de-
sires to come over. I will be there to
meet her and from that city we will
make a prolonged tour of the whole
country, visiting all cities of considerable
size."

"I have arranged for the queen to
wear a crown on the stage and she will
present precisely the same appearance
that she does in Hawaii."

INCREASED GOLD OUTPUT.

Estimates Point to Production of \$150,
000,000 for 1893.

WASHINGTON, March 22.—A produc-
tion of gold throughout the world of
\$150,000,000 for the calendar year 1893 is
the latest estimate of the Bureau of the
mint, and the figures which have recently
been received verify the estimates made
earlier in the year. The gold production
of 1892, as revised in the last report of
the mint bureau, was \$134,341,000.

The increase of \$15,000,000 will be
mainly furnished by the United States,
South Africa and Russia.

The figures for the United States, al-
though not yet quite complete, indicate
an increase of \$4,000,000 over those for
1892, the increase in South Africa will
be about \$6,000,000, in Russia about half
a million and in Australia also about half
a million. There will be small gains in
other countries, including China and
Japan, but they may be offset by small
losses elsewhere.

The returns from Russia and Australia
are not yet complete, and may show an
even larger increase than has been esti-
mated by Mint Director Preston.

The reports which are constantly
reaching the treasury department indicate
the production of gold is being
pushed to its maximum, and that im-
proved processes for extracting the met-
al will be used to their utmost limit to
increase the output for 1894. Gold to the
value of \$8,000 was deposited within a
day or two of the Denver mint and like
deposits are likely to come at frequent
intervals during the remainder of the
year.

AT KANSAS CITY.

Mercury Takes a Big Drop—Air Clear
and Cold.

KANSAS CITY, March 22.—The ther-
mometer has taken a big drop here.
To fall from 75 degrees at noon yesterday to
25 degrees at 5 o'clock this morning.
The wind is moderate and the air is clear
and cold.

AT ARKANSAS CITY.

Ice Half an Inch Thick and Damage to
Fruit Fears.

ARKANSAS CITY, Kas., March 22.—The
cold wave arrived during last night and
this morning there is ice a half inch
thick. It is feared that peaches and
plums now in bloom have been killed.

IN WISCONSIN.

Steel Storm Breaks Down Wires and
Impedes Train.

WEST SUPERIOR, Wis., March 22.—The
snow and sleet storm of last night and
today has broken telephone, fire alarm
and police patrol wires. The wind has
been blowing a perfect gale, but in the
right direction to blow the ice off of
the lake, and it has broken in immense
blocks upon the shore. Trains are late
and street cars are not running. Busi-
ness is now suspended.

MELTING AT DENVER.

The Weather Is Warmer Up and Snow
Disappearing.

DENVER, March 22.—The snow storm,
which has been in progress here at intervals
for thirty-six hours past, ceased at 11
o'clock today. The fall is very light,
and the weather being warm, it is dis-
appearing rapidly.

Traffic through the mountains over the
Rio Grande and Midland, as well as eastern
lines, has not been delayed.

RED AND BLUE CYCLONE.

Peculiar Storm Manifestation Reported
at Madison, Ind.

MADISON, Ind., March 22.—A cyclone
passed over West Madison at five o'clock
this morning, barely touching the ground.
In some places great trees

were uprooted, as in an individual case
the root system of a tree was torn away
by the cyclone.

There was a peculiar noise and friction
in the air, with red and blue colors,
followed by a hail storm.

THE COLD SNAP LOCALLY.

The Wind Prevented the Temperature
From Doing Harm.

A cold wave struck Topeka last evening,
and the delightful Kansas weather of
the past two weeks was succeeded by
very inferior article from Manitoba.

The thermometer had dropped to 24
degrees at sunrise this morning. At 3
o'clock this afternoon it had crawled up
to 43 degrees, but Weather Officer T. B.
Jennings says it will be colder tonight
than it was last night, and colder tomorrow
than it was today. He thinks the
wave will cease wailing about Saturday
noon, but the chances are most unfavor-
able for the Easter weather desired.

The proposed legislation is to consist
of four members besides the secretary of
the treasury, two of whom are to reside
east and two west of the Mississippi and
no more than three of them are to be
members of any one party. It is made
as to the rates of duty imposed upon any
article imported into the United States
and to assess and determine whether
the rates are greater or less than is just,
necessary or proper for raising revenue,
and their decision is to be reported to
the president, who, if he approves, it is
required to issue an elevation stating
the decision of the board, giving the
decision or decrease and requiring custom-
ers to assess and collect duties
upon the articles mentioned in accordance
with the decision of the board.

The plan is to base tariff revision en-
tirely on the basis of the congress and
leave it to the proposed board and
the president.

JUDGE FOSTER'S PENSION.

Congressman Broderick Is Talking the
Matter Up With Other Congressmen.

In a special letter to the Kansas City
Times from Washington, Mr. R. H. Lind-
sey, who is well known in Topeka, says:

"Tuesday of last week Judge C. G.
Foster of Topeka, for whose relief a bill

is now pending in congress had served

as United States federal judge twenty
years. The bill is quietly sleeping be-
cause Judge Broderick has not deemed it
advisable to press it until the facts can
be explained to representatives, whose
assistance may be needed.

The indications are that some of the
Kansans will oppose the bill because
certain of the sub-alliances have
adopted resolutions denouncing it. These
penny wise and pound foolish people do
not know that it costs the government
more to have special judges sit than it
would to retire Judge Foster, and that in
addition, the cost to litigants through
delay is tenfold the amount required.

DOES THE CHARGES.

First Witness in Denver Contempt Pro-
ceedings Called.

DENVER, March 22.—The contempt
proceedings against Mayor Van Horn,
Excise Commissioners Mullins and Barnes,
were continued before Judge Ginn.

W. G. Evans, secretary of the Denver
tramway company, who has been ac-
cused of sending several hundred armed
men to the city hall to aid Commissioners
Orr and Martin in their fight against the
governor, was the first witness called.

He most emphatically denied these
charges and said he had advised the
adoption of pacific measures and the
peaceful settlement of the trouble.

The supreme court today received the
brief presented by the attorneys for
Governor Waite in his famous city hall
case. The court expects to render an
opinion some time Saturday.

PRINCE OF PEACE."

A Curious Crank Who Wore White
Trousers and Red Overcoat Dead.

ATLANTA, Ga., March 22.—Elias Gove,

the self-styled "Immanuel, the Prince of
Peace," who for years has been a pic-
turesque figure in the streets of Atlanta,
dressed in white cotton trousers, red
broadcloth cape overcoat and a picture-
quesque hat. He carried a palm leaf fan
and an old umbrella. He was never out
of doors without them.

KANSAS PATENTS.

Patents granted to citizens of Kansas

for the week ending March 20th, 1894,

reported through the office of J. F. Beale,

solicitor of patents, 600 F street, N. W.

Washington, D. C.; John H. Bar, Mer-
iden, rubber type printing press; Newton

Chase, Fort Scott, hammer on hatchet;

Geo. B. Dudley, assignor of one-half to

T. B. Peacock, both of Topeka, cartridge
pouch; Myron H. Richardson, Winfield,
